**Subject:** Microsoft Settlement

Dear DOJ,

I have never written to the government about anything in my 49 years. However I felt compelled to send a brief email message about the Microsoft settlement. Considering the other crisis this country has been hit with in recent times. I feel the government has spent enough of our tax dollars on a witch hunt. The time has come to finally settle this matter and move onto more pressing National concerns! Please put me in the column of the Microsoft suit be settled, final answer.

Yours,

Robert Rodgers
